**PRESENTATION:** Join us to discuss the pain management & opioid public health crisis. This comprehensive training was developed by renowned experts from Collaborative for REMS Education (CO\*RE) and incorporates all six units outlined in US FDA Blueprint for safe opioid prescribing. This course also provides some context around safe opioid prescribing by discussing biopsychosocial aspects of pain, the newest clinical guidelines on the treatment of chronic pain, and state policies about prescribing opioids.

As a result of attending this training, participants will be able to:

- Describe the pathophysiology of pain as it relates to the concepts of pain management.
- Accurately assess patients in pain.
- Develop a safe and effective pain treatment plan.
- Identify evidence-based non-opioid options for the treatment of pain.
- Identify the risks and benefits of opioid therapy.
- Manage ongoing opioid therapy.
- Recognize behaviors that may be associated with opioid use disorder.

**ABOUT THE PRESENTER:** Dr. Edwin A. Salsitz has been an attending physician in the Mount Sinai Beth Israel Division of Chemical Dependency, New York City, since 1983, and is a Clinical Associate Professor of Psychiatry at the Mount Sinai School of Medicine. He is the principal investigator of the Methadone Medical Maintenance (office-based methadone maintenance) research project. Dr. Salsitz is certified by the American Board of Addiction Medicine (ABAM), as well as by the Board of Internal Medicine and Pulmonary Disease.
