

The Airway Management Trainer is a realistic representation of human anatomy, tissue, and skin that allows students to:

- Practice oral and nasal intubation
- Practice use an LMA (Laryngeal Mask Airway) and Combitube®
- Correct tube placement can be checked by practical inflation test
- Realistic anatomical features allow demonstration of Sellick Maneuver and laryngospasm
- Bag-Valve-Mask ventilation can be practiced
- Stomach inflation and vomiting situation can be simulated
- Provides visual inspection of lung expansion
- Provides auscultation of breath sounds
- Airway demonstration model is standard with each trainer
